

Occupational Therapy

Pediatrics

The Occupational Therapy Department is now taking referrals for pediatrics!!! OT will be working with kids across the spectrum of age and ability to help them be successful in their daily lives. Treatment focuses include:

- Activities of daily living skills including feeding, dressing, toileting and bathing
- Fine and gross motor skill development
- Postural motor development
- Independent living skills
- Social engagement/play skills
- Sensory processing and self-regulation
- Sensory diet design/home program
- ADHD and Behavioral management
- Handwriting skills
