

## *Memorial Medical Centers Pediatric Physical Therapy*

The Physical Therapy Department is now taking referrals for pediatrics! PT will be working with children from infancy through adolescence to help them be successful in their daily lives and reach developmental and age appropriate milestones. Treatment focuses include:

- Developmental activities
- Strengthening
- Movement and mobility
- Tone management
- Motor learning
- Balance & coordination
- Recreation, play and leisure
- Adaptation of daily care activities and routines
- Equipment design, fabrication, and fitting
- Tone management
- Use of assistive technology
- Posture, positioning, and lifting
- Eases challenges with daily caregiving
